

### Spigraph adds Digital Assemblies by Linkando to its portfolio:

Formal online meetings with voting and elections conquer the market

**HOUTEN –Spigraph, a leading provider of document capture and information management solutions has signed a partnership agreement for the BeNeLux, Nordics and the UK with Linkando, provider of “Digital Assemblies”. “Digital Assemblies by Linkando” is an innovative and secure solution for conducting formal online meetings. Due to the increased demand for legally compliant online meetings as a result of the pandemic, interest in Digital Assemblies has grown exponentially in the past year. In order to provide professional support to organisations, associations or public institutions in more European countries, Linkando has signed a partnership with Spigraph.**

In addition to the classic video conferencing functions, Digital Assemblies also includes comprehensive voting rights management and enables legally compliant virtual elections and votes. From invitation to final meeting minutes, all formal assembly requirements are supported by automated and transparent processes.

Volker Wiora, CEO at Linkando: "Spigraph is at home in the digital world and knows the needs of potential customers. We are excited that Spigraph, a renowned partner, is supporting us in offering our solution outside of the German-speaking region through its extensive partner network. In interaction with Spigraph resellers, we immediately get a much larger presence for our solutions throughout Europe."

"With Digital Assemblies by Linkando, we are able to provide our reseller network with a solution for their customers that allows them to reliably conduct online all the meetings that used to be held as face-to-face events - including elections and votes," adds Peter de Boer, CEO at Spigraph. "It is becoming apparent that online meetings will continue to be the order of the day. Digital Assemblies is a pragmatic approach to support organisations and associations with their digital communication challenges. We are always keen to include new solutions in our portfolio if they help companies to overcome the challenges of digital transformation. From this perspective, Digital Assemblies fits very well into our strategy."

Whether it's live voting, real-time agendas or voter management, whether individual requests to speak need to be documented or entire contributions need to be simultaneously translated - Digital Assemblies is a sophisticated SaaS solution that is appreciated by politicians, corporations and associations alike. Thanks to Spigraph, organisations outside Germany are now benefiting from these possibilities for the first time.

Interested organisations can register at <https://marketing.spigraph.com/landing/digitalassemblies/> to participate in a live webinar of Spigraph to learn more about the solution.
