ScanSnap S1300i

Portable and intuitive scanner for enhanced productivity

The portable ScanSnap S1300i provides Windows and Mac users the tools to be productive and paperless… anywhere – anytime.

Simple, Speedy & Compact!

The ScanSnap S1300i is a document scanner for the PC or Mac user capable of scanning up to 12 pages per minute / 24 images per minute. The 10 page ADF can cope with a mixed variety of single or double sided documents ranging in different size and thickness as well as colour or black and white.

Efficiently manages scanned documents

- S1300i users can easily locate specific ScanSnap generated PDF and JPEG files by viewing displayed thumbnail images
- Keyword searches can be performed on S1300i generated PDF file text
- The S1300i creates searchable PDF files by performing OCR functions when the linked computer CPU is idling

Intelligent cropping (PC users only)

This feature enables users to easily "cut out" digitised copies of newspaper and magazine articles that they have outlined on the original paper document with a highlight pen.

Intelligent indexing

This feature extracts text from sections of scanned images that have been highlighted. This index information can then be attached to PDF files as so called Meta Data.

Seamless linking to Cloud services

The ScanSnap series scanners come with a standard array of functions for near effortless scanning to Evernote, Google Docs, Salesforce, SugarSync and Dropbox.

ScanSnap Folder (Windows OS only)

You can now easily scan into your preferred application or cloud service even when no scan interface is available, through the import capability. Browse to the new ScanSnap Folder and hit the blue scan button. The documents are now imported into your application and automatically deleted from the ScanSnap Folder on your local computer!

ScanSnap welcomes Dropbox

Dropbox is a free service that lets you bring all your photos, docs and videos anywhere. This means that any file you save to your Dropbox will automatically save to all your computers, phones and even the Dropbox website.

With more cloud services to choose from, ScanSnap customers are sure to find the right application for their documents.

New ScanSnap Receipt

- Organise receipts: Manage all of your receipts in one place
- Extract information: Easily extract data from receipts
- Efficient tax and expense filing: Export in CSV format

New ScanSnap Sync

ScanSnap Sync easily synchronises multiple devices: Scanned data will be synced automatically through your chosen cloud service.

Efficiently organises Business Card information

- Scans large volumes of business cards into digital business card holders
- Enables users to export scanned data into Excel, Outlook, SalesForce and other contact management tools for future reference

ScanSnap S1300i Deluxe includes Rack2-Filer Smart and Magic Desktop

Windows only

Rack2-Filer Smart allows you to save your scanned and existing digital data in realistic looking bookcases and files that can then be easily retrieved and flipped through the way you may with regular files.

Access and utilise this data anywhere whether through your cloud services or if via a smart device, you can edit, add a comment and then save or redistribute.

Magic Desktop enables you to organise / edit image files or scan data imported from ScanSnap in a workspace simulating an actual desktop. You can seamlessly organise your work by categorising data per group and you can also share information with a group with the communication function that links with Facebook.

Scans to a greater range of mobile devices

Laptop   WiFi   Tablet   Smartphone   ScanSnap

Like all scanners of the ScanSnap series, the S1300i supports wireless scanning to iPad® and iPhone® devices for convenient mobile viewing via the ScanSnap Connect Application*, which now comes in a version for Android™ smartphones and tablets and also for Kindle™ devices.

* ScanSnap Connect Application is available as a free download from the official application distribution service of the device (Google Play, Apple App Store and Amazon App Store). The Wi-Fi of the ScanSnap installed computer must be turned on to use this feature.
